^{*} From 1 April 2020, the official CO₂ emissions values used to calculate Vehicle Excise Duty (VED) charges will change for all passenger car registrations in the UK, due to a change in the method of testing. This will affect the recommended 'on the road' price you pay (in most circumstances, prices will increase).

The recommended 'on the road' prices and any VED charges quoted reflect the VED charges which apply to vehicles registered after 1 April 2020. Choice of wheels and other options may affect fuel consumption, BiK and emissions data (which may affect the amount of VED payable and therefore the ROTR price). The price and charges you pay may differ from any prices or charges displayed or quoted before 1 April 2020.

From 6 April 2020, the official CO_2 emissions values used to calculate benefit in kind (BIK) charges for fleet channels will change for passenger car registrations in the UK. This is due to a change in the method of testing. The BIK charges quoted reflect the charges which apply to vehicles registered after 6 April 2020. These charges may differ from any charges displayed or quoted before 6 April 2020.

YOUR KODIAQ, YOUR WAY

From stylish extras that make ordinary trips feel extraordinary, to practical touches that ensure nothing gets left behind, it's your call to make.

NEXTBASE 522GW DASH CAM AND GO PACK

Recording in 1440p HD, the new Nextbase 522GW Dash Cam now packs even more features into the UK's most popular dash cam brand, including built-in Amazon Alexa, HD touchscreen and Intelligent park mode - which begins recording when any physical vehicle movement is detected, keeping your vehicle safe when parked.

RUNNING BOARDS

To enhance the luxury look, our exclusive, stylish stainless steel, anti-slip running boards make it easier to get in and out of your car, as well as loading various objects stored in the roof box. To guarantee a high load capacity (up to 300 kg) and resistance to damage, they are made from metal and are designed to ensure that their contact surface perfectly copies that of the door sills.

ROOF BOX AND ROOF BARS

By using the roof box in conjunction with our aluminium roof bars, you solve a common problem when transporting large, awkward objects such as skis, snowboards, pushchairs and golf bags that don't fit into the luggage compartment of a fully seated car. With its spacious 380 litres of volume, it can comfortably carry up to 75 kg in total stability.

THERMO-ELECTRIC COOLING BOX (15L)

Its utility and versatility make this ideal for travelling, whether it's long journeys or for food that needs to be kept cool when doing your daily shop. It cools your food quickly and uniformly - drinks, fruit and other food are always within easy reach on hot summer days. When switched to Thermobox mode, it allows you to warm up snacks or keep them at the temperature you require.

NETTING SYSTEM

Its utility and versatility make this ideal for travelling, whether it's long journeys or for food that needs to be kept cool when doing your daily shop. It cools your food quickly and uniformly - drinks, fruit and other food are always within easy reach on hot summer days. When switched to Thermobox mode, it allows you to warm up snacks or keep them at the temperature you require.

REAR SEAT PROTECTION AND DOG SAFETY BELT

Forget worrying about the cleanliness of your car, particularly when transporting your pet. This easy-to-clean seat protector is sufficiently sized to cover the back seats. It is waterproof, washable and has an anti-slip treatment for your pet's safety. The safety belt keeps your dog safe and is available in a variety of sizes.

PROTECTION PACK

Avoid mud splashes and debris around your KODIAQ's wheels and sills, as well as in the boot and underfoot. Included in the pack are mudflaps, front and rear floor mats (either textile or rubber), and a boot liner for five seat vehicles. All of these items can also be purchased separately.

MUDFLAPS

Mudflaps prevent stones, grit and road spray from ruining your precious bodywork. This custom design is moulded to fit snugly into the contours of the wheel arches.

REVERSIBLE BOOT LINER

Keep your car's boot immaculate with this easy-to-clean boot liner. Fabric on one side and plastic on the other, it fits perfectly onto the car's floor cushion and protects your boot space when transporting dirty or wet items.

FLOOR MATS

These quality mats will keep your carpeted floors looking pristine.
Thanks to quick release floor poppers, they won't slip around beneath your feet. They come in textile fabric but rubber versions are also available for the more outdoorsy types.

VED (Vehicle Excise Duty)

All vehicles will be subject to Vehicle Excise Duty based on the fuel type of the vehicle and its carbon dioxide (CO_2) emissions level, measured in grams per kilometre (g/km). Due to changes in vehicle emissions data, CO_2 figures may differ on these vehicles if taken from current ŠKODA UK stock.

 $Vehicle\ Excise\ Duty\ (VED)\ is\ correct\ at\ time\ of\ publication,\ but\ this\ may\ alter\ to\ reflect\ any\ change\ in\ the\ applicable\ VED\ rate.$

Note: Cars with a list price of £40,000 or more will pay an additional £325 on top of the first year rate and for a further four years on the standard rate (total of five years).

BIK CALCULATION EXAMPLE

KODIAQ SE 1.5 TSI 150PS ACT (5-seat)				
P11D value		£25,875.00		
Company car BiK tax based on CO ₂ emission level		35%

Annual company car tax (2020/21)				
20% income tax	20% of £9,056.25	£1,811.25		
40% income tax	40% of £9,056.25 £3,622			
Monthly company car tax (2020/21)				
20% income tax	£1,811.25 divided by 12 months	811.25 divided by 12 months £150.94		
40% income tax	£3,622.50 divided by 12 months	ed by 12 months £301.86		

Company car tax is based on the vehicle's carbon dioxide (CO_2) emissions. The higher the emissions, the higher its tax liability. When a company car is made available for private use a 'Benefit in Kind' value is calculated for tax purposes. The table above will help you calculate your tax liability.

P11D (expenses and benefits)

The P11D value is calculated by taking the On The Road (OTR) price for the vehicle, less the Road Fund Licence (RFL) and First Registration Fee (FRF).

BiK (Benefit in Kind)

The BiK percentage value is based on the CO₂ emissions of the vehicle for the current tax year 2020/2021.

ŠKODA Financial Services

ŠKODA Financial Services offer a wide range of finance, insurance and servicing packages designed to fit your needs.

We specialise in providing simple and convenient funding options for drivers. The Solutions Personal Contract Plan offers a flexible, fixed-rate plan designed around your budget, by deferring a proportion of the car's value until the end of the agreement. This means a significantly lower monthly repayment compared to a loan or hire purchase agreement, so you can have more car for your money or just reduce the size of your repayments.

You choose the size of your deposit, from as little as one monthly payment, and a repayment period that suits you. At the end of the term, there are three options:

- 1. Part exchange your car for a new ŠKODA on a Solutions contract.
- 2. Pay the optional final payment to own the car.
- 3. Return the car (subject to terms and conditions).

ŠKODA Financial Services also offers hire purchase, contract hire and service and maintenance plans. Speak to your ŠKODA Retailer for your personalised quotation today.

Finance subject to status. 18s plus. Terms and conditions apply. ŠKODA Financial Services.

Service and maintenance

Our range of servicing and maintenance plans will help to keep your ŠKODA in prime condition. Plus, the price is fixed so you won't be caught out by any unbudgeted costs.

All our service plans use genuine ŠKODA approved parts and trained technicians so you know your car is in the hands of experts. Parts and labour also come with two years warranty too.

Service Plan for cars under a year old

This covers your first two services for one payment of just £342 or 18 monthly payments of £19.00. The service plan includes a maximum of one oil service and one oil and inspection service. The vehicle service regime affects the entitlement service plan if you choose to purchase this.

Our service plans are designed for customers that travel 10,000 miles or less per year. If you travel over 10,000 miles per year, or would prefer to add maintenance or tyres, then speak to your ŠKODA Retailer to create a more tailored service plan.

All cars must be set to time and distance servicing. Exclusions and terms and conditions apply. Offer is available to retail customers only from participating $\check{S}KODA$ Retailers. Offers may be varied or withdrawn at any time. Freepost $\check{S}KODA$ Financial Services.

Service intervals

When you order your KODIAQ, you can choose whether your car is on a fixed or a flexible service regime. Your ŠKODA retailer will help you decide which regime suits how your car will be driven, enabling your car to stay in the best possible shape.

Fixed regime: service every 10,000 miles or one year (whichever comes first).

This is recommended if the vehicle is likely to be used in the following way:

- > Driven fewer than 10,000 miles per annum.
- > Mainly short journeys, driven mostly in towns or cities.
- > High vehicle loading/towing and frequent hill climbs.
- > Heavy accelerating and braking, using high revs.

Flexible regime: Sensors in the engine detect when a service is needed. A service light will show between 9,000 and 20,000 miles or up to 24 months (whichever comes first).

The flexible service regime is recommended for vehicles with a daily mileage of more than 25 miles where the vehicle is driven regularly and mainly at a constant speed with minimum vehicle and engine loading, minimal towing and driven in an economical manner.
